DEAR RECIPIENT:

I am excited to apply for the Full Stack Developer position at your company. With over 15 years of professional experience, primarily in civil engineering, I am now transitioning into software development. After recently focusing on a wide range of both front-end and back-end technologies, I am eager to bring my strong problem-solving skills to this new field.

Over the past six months, I have been training intensively in full stack development, and I am eager to apply my skills in this role and beyond. My goal is to deliver high-quality, efficient code that meets industry standards.

Thank you for considering my application. I look forward to discussing my qualifications with you further.

Sincerely,
Jesse Anderson
